

PhD Course of Materials Engineering  
Politecnico di Milano

## PERSPECTIVES ON MATERIAL INVESTIGATION TECHNIQUES

# I Workshop 2026

*March 26th, 2026*

***Room Pedeferrì – building 6 – Leonardo***

### Program

- 9:30      *Students registration and introduction*
- 9:45      *Assembling molecules toward materials: electrochemical synthesis and characterization of organic semiconductors for energy conversion and optoelectronics*  
**Prof. Massimo Marcaccio**  
Dipartimento Chimica "Ciamician" | Università di Bologna
- 10:45     *Transient electrochemical techniques for advanced system characterization*  
**Dr. Maksim Bahdanchyk**  
FaradaIC Sensors GmbH, Lead Electrochemist
- 11:45     *Transient electrochemical techniques for advanced system characterization*  
**Prof. Moreno Meneghetti**  
Dipartimento di Scienze Chimiche | Università di Padova
- 12:45     *Conclusions*
