

## Paolo Arosio

Department of Chemistry and Applied Biosciences,  
Institute for Chemical and Bioengineering, ETH Zurich

Paolo Arosio received his master degree in Chemical Engineering from the Politecnico di Milano in 2007 and his doctoral degree from ETH Zurich in 2011. After his doctoral studies under the supervision of Prof. Massimo Morbidelli he moved to the group of Prof. Tuomas Knowles at the Department of Chemistry at the University of Cambridge, UK. In May 2016 he joined the Institute for Chemical and Bioengineering at ETH Zurich, where he is currently a Tenure-Track Assistant Professor in Biochemical Engineering. He has been named as “Influential Researcher 2018” by the Ind. Eng. Chem. Res. ACS, and awarded an ERC Consolidator Grant in 2020.
